

Kevin's Puzzle of the Week

Allergic Reaction

Every day this week, a different kid has had a unique reaction to a different food.

Sam's allergen and symptom start with the same letter.

Taylor had a reaction some time before somebody got hives.

Dylan had a reaction one day before somebody had a reaction to pecans and one day after somebody got a stuffy nose.

The anaphylaxis happened exactly two days after Jordan's reaction.

The reaction to shellfish happened the day before the reaction to milk.

Those two allergens caused dizziness and hives, in some order.
